PROFESSIONAL SUMMARY

Final-year BSc Data Science student with strong experience in machine learning, data analytics, and full-stack development. Skilled in building end-to-end data solutions from data cleaning and modeling to deployment via REST APIs and modern frontend frameworks. Experienced in handling real-world data systems through ICT internship at KUCCPS. Passionate about leveraging AI and analytics to solve real-world problems.

TECHNICAL SKILLS

- **Programming & Development:**

Python, SQL, JavaScript (ES6+)
React.js, Node.js, Express.js
MongoDB, MySQL
REST APIs, Git & GitHub

- **Data Science & Machine Learning:**

Data Cleaning & Preprocessing
Exploratory Data Analysis (EDA)
Machine Learning (Regression, Classification, Clustering)
NLP (Sentiment Analysis, Tokenization)
Recommender Systems & Social Network Analysis

- **Tools & Platforms:**

Jupyter Notebook, Google Colab
Power BI, Excel
Linux (Basic), VS Code

EXPERIENCE

ICT Intern – KUCCPS (Kenya Universities and Colleges Central Placement Service)

- April – August
 1. Assisted in data cleaning, validation, and processing of student placement records.
 2. Supported database integrity and ensured secure data handling.
 3. Provided ICT troubleshooting and user support.
 4. Gained exposure to government data governance standards.

PROJECTS

VendorHub – Multi-Vendor E-Commerce Platform

- Tech: React, Node.js, Express, MongoDB

Developed scalable full-stack e-commerce system supporting multi-vendor architecture.

Designed secure RESTful APIs for authentication and product management.

Twitter Political Sentiment & Prediction System

- Tech: NLP, Machine Learning, Social Network Analysis

Collected and preprocessed 4 years of Twitter data.

Built sentiment classification models and predictive pipeline.

Recommender Systems Research Project

- Implemented collaborative filtering and cosine similarity models.

Evaluated recommendation performance using standard metrics.

EDUCATION

Meru University of Science and Technology

- Bachelor of Science in Data Science – Final Year (4.2)

Expected Graduation: October 2026

Nyambaria Boys High School

- KCSE: B-

INTERESTS

Machine Learning | Artificial Intelligence | Full-Stack Development | Data Analytics
